NEW ENGLAND

REAL ESTATE OFFICE,

91 Washington Street, Boston.

TO PURCHASERS OF REAL ESTATE.

W. GOWARD

Would respectfully invite all who wish to purchase Farm Houses, Stores, Building-Lots, &c., to call at his office an examine, FREE OF CHARGE, his large and extensive LIST O REAL ESTATE, which is the fullest and most comple Record of

Farms, Houses, House-Lots, &c., For Sale,

TO BE FOUND IN NEW ENGLAND.

TO THOSE WHO HAVE

REAL ESTATE FOR SALE

He would say that his facilities for the sale of property of th description are unsurpassed by those of any one in the State and persons having Real Estate of any kind, which the would like to dispose of, will please call on him, or forward t his Office, *full accurate, and correct descriptions* of the property which will be entered on his books. No charge will be mad for the entry; but, if a sale is effected, he will charge a fa commission. If owners wish to have their property ADVE TISED, and extra pains taken to dispose of the same, it will b punctually attended to, on the most reasonable terms.

GOWARD'S

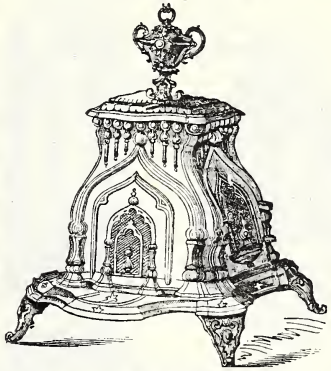
Real Estate Register

The most comprehensive and perfect paner of its kind in th United States, is published at this office every Saturda Terms, Two Dollars per annum.

In addition to its value as the BEST MEDIUM BETWEEN BU ERS AND SELLERS OF REAL ESTATE, it commends itself to a business interests as a most valuable and useful publication many features being introduced peculiar to it, and not to b found in any other paper in the country.

HARTSHORN & PIKE,

MANUFACTURERS AND DEALERS IN



STOVES,

COPPER, TIN, AND SHEET IRON WARE,

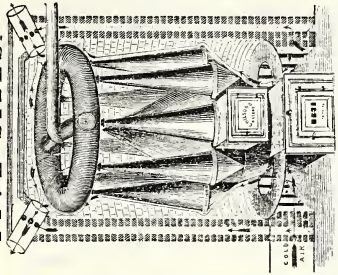
NO. 7 CENTRAL BUILDING,

MANCHESTER, N. H.

M. HARTSHORN. RUFUS H. PIKE.

CHILSON'S CONE FURNACE.

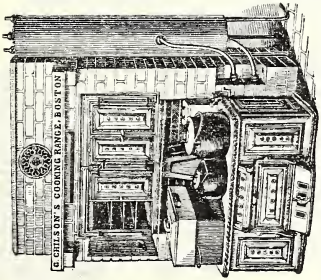
FIVE SIZES.



GOLD MEDAL awarded the above by the Mass. Charitable Mechanic Association at their late Fair.

Patented in United States, France, and England.

CHILSON'S DOUBLE-OVEN COOKING RANGE.



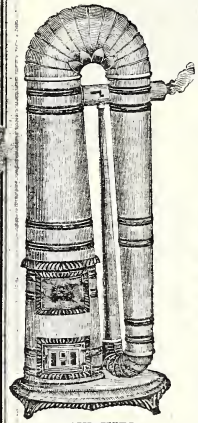
With or without Bath Boilers and Hot-Air Fixtures.

These ranges have been in use for many years, and are considered by those using them the most perfect and economical ranges for cooking, &c., now in use. If they wish to save fuel, and get the BEST RANGE IN USE, this is adapted to all classes of buildings. Special attention paid to setting Boilers and Heaters.

GARDNER CHILSON, 99 and 101 Blackstone Street, Boston.

A CHALLENGE TO THE WORLD!

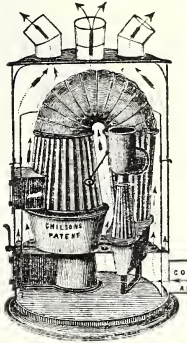
CHILSON'S PATENT TRIO STOVE.



SIX SIZES.

The cut of this remarkably economical Stove will enable every intelligent mind to comprehend, at once, the great economy in fuel secured by this strictly philosophical invention. Its extensive use has *proved*, and we can safely *warrant*, a saving of *fifty per cent* in fuel over any other plan of stove known.

CHILSON'S PATENT Trio Portable Furnace.



THREE SIZES.

This furnace is the same in principle as the Trio Stove. We warrant a saving of *fifty per cent in fuel* over the common Portable Furnaces. It is made of substantial heavy castings, and is not liable to rust and burn out, or leak gas, as is the case with the common portable furnaces, made partially of sheet iron.

Stoves, Furnaces, Ranges, Mantels, Grates, Registers, Ventilators, &c., as usual.

Special attention given to warming and ventilating buildings.

GARDNER CHILSON,

99 and 101 Blackstone Street, . . Boston.

F 84258.215

PREFACE.

THE remark is sometimes made, that, in a city where a Directory has once been issued, the compilation of subsequent numbers must be an easy task. But this idea is erroneous: for in preparing the information nothing printed in the previous issue is relied upon as correct until it has again been put to the test; and for this purpose the city is thoroughly canvassed, and each house and store visited, that every name may be taken anew.

It is pleasing to find a considerable increase of names, both in the general list and in the Business Directory; indicating, as it does, a greater increase of population for the past two years than could have been expected during a period of such unusual depression of business.

Lest any should entertain the idea that the old Directory will answer their purposes yet longer, attention is called to the following figures: —

Names in Directory of 1858,.....	4,231
Names erased in preparing Directory of 1860,.....	1,215
	3,016
Names added in preparing Directory of 1860,.....	1,783
Names in Directory of 1860,.....	4,799
Other changes, such as re-numbering of buildings, removals, changes in firms, &c., &c.,.....	1,999

When you have any good thing to do, don't tell it, but go and do it; for if you tell it beforehand the devil will be sure to get up some opposition to it.—*Dr Ecc her.*

To clean Wall Paper.—Soiled wall papers may be made to look as well almost as new, in most cases, by the following expedient: take about two quarts of wheat bran, tie it up in a bundle in coarse flannel, and rub it over the paper. It will cleanse the whole paper of all descriptions of dirt and spots, better than any other means that can be used. Some use bread, but dry bran is better.

A Retort Direct.—A clergyman from a neighboring town and one of his elderly parishioners were walking home from church one icy day last winter, when the old gentleman slipped and fell flat on his back. The minister, looking at him a moment, and being assured that he was not much hurt, said to him: "Friend, sinners stand on slippery places." The old gentleman looked up, as if to assure himself of the fact, and said, "I see they do; but I can't."—*Providence Post.*

To KEEP EGGS.—During a long voyage to South America, it was noticed how fresh the eggs continued to be. The steward was called on for his secret. He said that as he purchased his stock he packed them down in small boxes—raisin boxes; and afterwards about once a week he turned over every box but the one from which he was using. This was all. The reason of his success is, that, by turning the eggs over, he kept the yolk about the middle of the albumen. Still, the yolk will after a while find its way through the white to the shell, and when it does the egg will spoil. Hens understand this fact, for it is well known they turn over their eggs on which they set at least daily.—*Country Gentleman.*

This is leap-year,—old bachelors, take particular notice.

Do not go into a sick-room while perspiring freely. The pores being open, they will absorb infection.

CARELESSNESS is little better than a half-way house between accident and design.

SUCCESS. — Every man must patiently abide his time. He must wait. Not in listless idleness, not in useless pastime, not in querulous dejection; but in constant, steady, cheerful endeavor; always willing, fulfilling and accomplishing his task, *that when the occasion comes he may be equal to the occasion.* The talent of success is nothing more than doing what you can do well, without a thought of fame. If it come at all, it will not come because it is sought after. It is a very indiscreet and troublesome ambition which cares so much about fame, about what the world says of us, to always be looking in the faces of others for approval; to be always anxious about the effect of what we do or say; to be always shouting to hear the echoes of our own voices.

Let us, then, be up and doing,
With a heart for any fate;
Still achieving, still procuring,
Learn to labor, and to wait.

Longfellow.

PAINTED wooden pails are more poisonous than lead pipes.

A FOOL in a high station is like a man on the top of a mountain,—everybody appears small to him, and he appears small to everybody else.

SHADE TREES near houses are beautiful; but they never should be so closely planted as to exclude the bright sunshine, and thus cause dampness in the dwellings. When trees spread out their broad arms, and prevent "Old Sol" from sending his cheering rays into every room in the house, their branches should be thoroughly pruned, or every intermediate tree cut down.

Dr. Hall, in his *Journal of Health*, says respecting light: "No room without the glorious sunshine is fit for any living creature,—man or beast. The glorious sunshine, the free and boundless gift of a beneficent Creator, is the source of all buoyant, healthful life."

A wag was once heard to say, that the difference between the Southern and Northern people is, those in the South never sell any thing they can eat, while those of the North never eat any thing they can sell.

KEEP your temper in disputes: the cool hammer fashions its red-hot brother-metal into any required shape.

HARD SOAP. — Take three pailfulls (twelve-quart pails) of common soft soap, and five pints of salt. Heat them together, and stir them well and thoroughly. Set the mixture aside to cool and harden. Take the hard soap from the top, and put to it one and a half pailfulls of *weak lye* and two and a half pints of salt. Heat, and stir well together, and cool as before. Again remove the soap, melt it, and pour it into any shaped moulds you choose.

Two men, A. and B., find a cask of wine containing *eight* gallons, and wish to divide it equally between them. They have got two empty casks,—one capable of containing *five*, the other *three* gallons. They have nothing else with which to measure. How can they each obtain *four* gallons?

RECIPE FOR RHEUMATISM.—Lemon-juice is relied on by the physicians of Loudon for curing rheumatism. Three tablespoonfuls per day is a dose for a man.

CURE FOR THE BITE OF A MAD DOG.—A writer in the *National Intelligencer* says that spirits of hartshorn is a certain remedy for the bite of a mad dog. The wound, he adds, should be constantly bathed with it, and three or four doses, diluted, taken inwardly during the day. The hartshorn decomposes, chemically, the virus insiuuated iuto the wound, and immediately alters and destroys its deleteriousness.

DANIEL WEBSTER penned the following sentiment: "If we work upon marble, it will perish; if we work upon brass, time will efface it; if we rear temples, they will crumble into dust; but if we work upon our immortal minds,—if we imbue them with principles, with the just fear of God and of their fellow-men,—we engrave on those tablets something which will brighten to all eternity."

RICHES are the baggage of virtue; they cannot be spared nor left behind, but they hinder the march.

HOW TO SELECT FLOUR.—1. Look at its color: if it is white, with a slightly yellowish straw-colored tint, it is a good sign. If it is very white with a blueish cast, or with black spects in it, the flour is not good. 2. Examine its *adhesiveness*. Wet and knead a little of it between your fingers: if it works and is elastic, it is good; if it works soft and sticky, it is poor. Flour made from spring wheat is likely to be sticky. 3. Throw a little lump of dry flour against a dry, smooth, perpendicular surface: if it adheres in a lump, the flour has life in it; if it falls like powder, it is bad. 4. Squeeze some of the flour in your hand: if it retains the shape given it by pressure, that, too, is a good sign. Flour that will stand all these tests it is safe to buy. These modes were given by old flour dealers; and we make no apology for printing them, as they pertain to a matter that concerns everybody; namely, the quality of that which is "the staff of life." *Ohio Farmer.*

It won't do for a man to bump his head against an iron post, even with a brick in his hat, unless he conscientiously believes that his head is the hardest.

CUCUMBERS. — When a cucumber is taken from the vines, let it be cut with a knife, leaving about the eighth of an inch of the cucumber on the stem; then slit the stem with a knife from its end to the vine, leaving a small portion of the cucumber on each division; and on each separate slit there will be a new cucumber as large as the first. Those wishing to raise large quantities of this article for pickles will do well to try the experiment.

A PAPER giving an account of Toulouse, France, says: "It is a large town containing sixty thousand inhabitants built entirely of brick." This is equalled only by a known description of Albany, which runs thus: "Albany is a city of eight thousand houses and twenty thousand inhabitants, with their gable ends to the street"!

The Wisconsin Board of Education recently resolved to erect a building large enough to accommodate five hundred students three stories high, exclusive of the basement!

THE man who has nothing to boast of but his illustrious ancestors is like a potato, — the only good belonging to him is under ground.

MOTHS IN CARPETS. — An experienced housekeeper writes: "Camphor will not stop the ravages of the moths after they have commenced eating. Then they pay no regard to the presence of camphor, cedar, or tobacco: in fact, I rather think they enjoy the latter, if anything else than humanity can. Nor will the dreaded and inconvenient taking up and beating always insure success; for I tried it faithfully, and, while nailing it down, found several of the worms 'alive and kicking,' that had remained under the pile unharmed. I conquered them wholly in this way: I took a coarse crash towel, and wrung it out of clean water, and spread it smoothly on the carpet, then ironed it dry with a good hot iron, repeating the operation on all suspected places, and those least used. It does not injure the pile or color of the carpet in the least, as it is not necessary to press, heat and steam being the agents; and they do the work effectually on worms and eggs. Then the camphor will doubless prevent future depredations of the miller."

A MISER grows rich by seeming poor; an extravagant man grows poor by seeming rich.

THE SEXES.—The number of males born is greater than the females, by about two per cent. At twenty years of age this preponderance is entirely lost, and there are more females than males. At forty years the balance is again the other way, and there are more males than females. At seventy the sexes are about even, and the ultimate age of the human being is reached without any decided advantage to either sex.

TO RESTORE THE ELASTICITY OF CANE-SEAT CHAIRS, &C.—Turn up the chair, and with hot water and sponge wash the cane-work well; if necessary, add soap. Let it dry in the air, and it will be tight and firm as new.

NOT BOUGHT, BUT SOLD.—The Buffalo Express tells a good story of a Quaker who was charged the exorbitant sum of seventeen dollars for a horse and buggy for a short drive, and, upon being presented with the bill, remarked, "Thou mistakest me, I do not wish to purchase thy establishment, but only to hire it."

Oh, square thyself to usel a stone that may fit in the wall is not left in the way.

PAYABLE AT SIGHT.—"Bob, have you seen Mr. Brown lately?" "No, Jim, I haven't—why?" "Why, I have a note of his, and, being short of funds, should like to find him." "The note is good, is it not?" "Oh, yes! as good as gold, I suppose; but there's a difficulty, nevertheless. It reads 'At sight, I promise to pay,' &c. Now, I don't say anything against the note, but blow me if I have had a sight of him since he gave it to me, and probably won't have as long as I live."

"DO YOU KNOW," said a friend to Jerrold, "that Jones has left the stage and turned wine-merchant?" "Oh, yes!" Jerrold replied; "and I'm told that his wine off the stage is better than his whine on it."

THEY that govern most make least noise. You see, when they row in a barge, that they who do drudgery work splash and puff and sweat; but he that governs sits quietly at the stern, and scarce is seen to stir.

"WHY don't you limit yourself?" said a physician to an intemperate person: "set down a stake that you will go so far and no further." "So I do," said the toper; "but I set it so far off that I always get drunk before I get to it."

A FACT FOR SMOKERS.—While on business, Hunnington was never seen without a cigar in his mouth, and was never well. Since entering prison, smoking is prohibited, and in three months he has gained fifteen pounds in flesh, and good health in proportion.

IT is told of Charles Lamb, that one afternoon having taken a seat in a crowded omnibus, a stout gentleman looked in, and politely asked, "All full inside?" "I don't know how it may be with the other passengers," answered Lamb, "but that last piece of oyster pie did the business for me!"

DR. BARNES being inclined to sleep a little during a dull, prosy sermon, a friend who was with him joked him on his having nodded now and then. Barnes insisted on his having been awake all the time. "Well, then," said his friend, "can you tell me what the sermon was about?" "Yes, I can," he answered; "it was about an hour too long!"

THE YEAR 1860

Constitutes the latter part of the 84th year of the Independence of the United States of America, and the 6573d of the Julian Period: and the 5620th according to the Jews, and the 5864th according to Usher, and the 7368th according to the Septuagint, since the creation of the world; the 2613th of Rome, according to Varro; and the beginning of the 1277th of the Hegira, the years of which are purely lunar.

ECLIPSES IN THE YEAR 1860.

There will be four Eclipses this year, two of the Sun and two of the Moon.

I. *An Annular Eclipse of the Sun*, Jan. 22, invisible in North America, but may be seen at Cape Horn and in the South Pacific Ocean.

This Eclipse begins,..... Jan. 22d, 5h. 10m. A. } Mean time
And ends,..... " " 10h 15m A } at Boston.

II. *A Partial Eclipse of the Moon*, Feb. 6, visible in all parts of North America, as follows:—

First contact with the Penumbra, Feb. 6th, 7h. 16m. A. }
First contact with the Shadow,... " " 8h. 7m. A. }
Middle of the Eclipse,..... " " 9h. 44m. A. } Mean time
Moon leaves the Shadow,..... " " 11h. 11m. A. } at
Moon leaves the Penumbra,..... " 7th, 0h 12m. M. } Boston.

Magnitude of the Eclipse (moon's diameter = 1), 0.809.

III. *A Total Eclipse of the Sun*, July 18th, visible as a partial one at Boston.

Begins on the Earth generally,..July 18th, 7h. 9m. M. }
Central Eclipse begins,..... " 8h. 13m. M. } Mean time
Centre Eclipse at noon..... " 9h. 21m. M. } at
Central Eclipse ends generally,... " 11h. 9m. M. } Boston.
Ends on the Earth generally,... " 0h. 5m. A. }

This Eclipse will be central and total in Oregon, northern part of British America, Spain, and the Barbary States. It will be partial in the United States, most of Europe, and part of Africa.

IV. *A Partial Eclipse of the Moon*, Aug 1, invisible in the United States.

First contact with the Penumbra, Aug 1st, 9h. 59m. M. }
First contact with the Shadow,... " " 11h. 24m. M. } Mean
Middle of the Eclipse,..... " " 0h. 40m. A. } time
Last contact with the Shadow,.... " " 1h. 56m. A. } at
Last contact with the Penumbra,.. " " 3h. 21m. A. } Boston.

This Eclipse will be visible in China.

THE SEASONS.

Spring begins,	. . . . .	March 20th, 9h. 5m. Morn.
Summer "	. . . . .	June 21st, 5h. 43m. Morn.
Autumn "	. . . . .	Sept. 22d, 7h. 52m. Eve.
Winter "	. . . . .	Dec. 21st, 1h 51m. Eve.

CYCLES OF TIME.

Dominical Letters,	AG	Solar Cycle,	21
Epact,	7	Roman Indiction,	3
Golden Number,	18	Julian Period,	6373

VISIBILITY OF MERCURY. — This planet will be visible early in the morning in the East, May 1, Aug. 25, and Dec. 15. It will also be visible in the West, soon after the Sun is below the horizon, March 13, July 11, and Nov. 9.

MORNING AND EVENING STARS. — Venus will be the Evening Star until July 13: after which it will be the Morning Star. Mars will be the Morning Star until July 14; after which it will be the Evening Star. Jupiter will be the Evening Star until July 31; after which it will be the Morning Star. Saturn will be the Morning Star until Feb. 11; after which it will be the Evening Star until August 23; it will then be the Morning Star.

EXPLANATION OF CHRONOLOGICAL CYCLES.*

I. *Dominical Letter.* — The seven days of the week reckoned as beginning on the first of January, are designated by the first seven letters of the alphabet, A, B, C, D, E, F, G; and the one of these which denotes Sunday is the *Dominical* letter. Thus, if the year begin on Sunday, A is the dominical letter; if it begin on Monday, that letter is G; if on Tuesday, it is F; and so on. If there were 364 days, or exactly 52 weeks in the year, the Dominical letter would be always the same; but the year contains 365¼ days; an excess of 1¼ day over the 52 weeks. The day is taken into the account every year, and the one-fourth makes a day in every four years; so that the dominical letter falls backward *one letter* for each of the three years in which the date or number of the year cannot be divided by 4, without remainder, and *two letters* every fourth year, when the date can be so divided. The years which have 29 days in February, and the two dominical letters are called Bissextiles, or *leap years*, because the day of the month, after February, *leaps* over a day of the week.

II. *The Golden Number.* — At the end of every nineteen years, the new and full moons happen at very nearly the same times of the year. The ancients discovered this, and reckoned the nineteen years, or "Cycle of the Moon," as it is called, so that it terminated the year before the Christian era. This Cycle was marked by the Greeks with letters of Gold. To find the *golden number*, or number of the year in this Cycle, add 1 to the date; divide by 19: the quotient is the number of Cycles of the Moon since the birth of Christ, and *the remainder is the golden number.*

III. *Solar Cycle.* — *The Cycle of the Sun* is the number of years that elapse before the Sundays throughout the year happen on the same days of the month. If there were 364 days in the year, that would happen every year; if 365, it would happen every seventh year; but because the *one-fourth* of a day makes an alteration of a day every fourth year, the Cycle must extend to 28 years. Nine years of this Cycle had elapsed before the birth of Christ. Therefore, to find the Cycle of the Sun, add 9 to the date; divide by 28; the quotient is the number of Cycles since the birth of Christ, and *the remainder is the Cycle of the Sun.*

IV. *The Epact* is the Moon's age for the first day of January, or the *equation* between the beginning of the Solar and the Lunar year. The time from one new moon to another is about 29½ days. Thus there are,

*Abridged from the Companion to British Almanac.

in a year, twelve revolutions of the moon and 11 days over; therefore the 12th new moon will take place 11 days earlier each year than it did the year before. In the lunar Cycle of 19 years, there are 12 new moons in each of 12, and 13 in each of 7; because the 11 days of yearly difference in three years exceed a lunar month by 3½ days. The following method will answer for the *day* of the moon's age on the 1st of January till the end of the present century: Take 1 from the golden number, multiply what is left by 11, divide by 30; the remainder is the *epact*, or moon's age on the first of January.

V. *Roman Indication.*—The Cycle of Indication has no connection with the motions of the Sun and Moon further than its consisting of 15 years. It was established by the Emperor Constantine, in the year 312, to regulate certain payments by the subjects of the empire. To find it for any year, subtract 312 from the date, divide by 15, and *the remainder is the indication.*

ON THE CALENDAR, AND ITS SUCCESSIVE REFORMS.

The divisions of time, such as they are presented in the Calendar, are composed of days, weeks, months, and years. The modes of determining these divisions have been various amongst the nations of antiquity, and there are still variations in these modes in the modern world.

The manner of reckoning the DAYS by the ancient Jews, and which subsists amongst that people at the present time, is, to commence the day at a certain hour of the evening, and to finish it on the next evening at the same hour. Thus their sabbath begins on the afternoon of Friday, and is completed on the afternoon of Saturday. The Roman Catholic Church also commences its *festivals* in the evening, and this custom is retained by the Episcopalians in some of their popular observances, such as the eve of St. John, and Christmas eve.

The civil day now commences at 12 o'clock, midnight, and lasts till the same hour of the following night. The civil day is distinguished from the astronomical day, which begins at noon, and is counted up to 24 hours, terminating at the succeeding noon. This mode of reckoning the day is that used in the Nautical Almanac, and it sometimes leads to mistakes with persons not familiar with this manner of computation. A little consideration will obviate the difficulty. Thus, January 10, fifteen hours in astronomical time, is January 11; 3 in the morning, civil time. In France and in most of the States of Europe, as with us, the hours are counted up to 12, from midnight till noon, and from noon till midnight. In parts of Italy and of Germany, the day is held to commence about sunset, and the hours are counted on till the next sunset. This mode is very inconvenient to travellers, as the noon of the "*Italian hours*" at the summer Solstice is 16 o'clock, and 19 o'clock at the winter Solstice.

The English names of the days of the WEEK are derived from the Saxons; and they partly adopted these names from the more civilized nations of antiquity. The following ingenious origin of the ancient names has been suggested in connection with astronomical science. The planetary arrangement of Ptolemy was thus: 1, Saturn; 2, Jupiter; 3, Mars; 4, the Sun; 5, Venus; 6, Mercury; 7, the Moon; each of these planets was supposed to preside, successively, over each hour of the 24 of each day, in the order above given. In this way Saturn would preside over the first hour of the first day; Jupiter over the second hour;

Mars over the third; the Sun over the fourth, and so on. Thus the Sun, presiding over the 4th, 11th, and 18th hours of the first day, would preside over the first hour of the second day; and carrying on the series, the Moon would preside over the first hour of the third day; Mars over the first hour of the fourth day; Mercury over the first hour of the fifth day; Jupiter over the first hour of the sixth day; and Venus over the first hour of the seventh day. Hence, the names of the days yet used in the learned professions throughout Europe. The present English names are derived from the Saxon:

Latin.	English.	Saxon.
Dies Saturni,	Saturday,	Seterne's day.
Dies Solis,	Sunday,	Sun's day.
Dies Lunæ,	Monday,	Moon's day.
Dies Martis,	Tuesday,	Tiw's day.
Dies Mercurii,	Wednesday,	Woden's day.
Dies Jovis,	Thursday,	Thor's day.
Dies Veneris,	Friday,	Friga's day.

Tiw, *Woden*, *Thor*, and *Friga*, were deities of the Pagan Saxons. *Thor* was the god of thunder, as well as the ancient Jove; and *Friga* was a goddess, the wife of *Woden*.

Almost all nations have regulated their MONTHS, in great degree, by the revolution of the Moon. Some have endeavored to unite this division with the annual course of the Sun, by an augmentation of days at the end of each year, or by adding a thirteenth month at the end of every third year. The Jews and the Athenians followed this latter method. The Macedonians, and some nations of Asia, assigned their months 30 and 31 days. The Turks and the Arabs have 29 and 30 days. The months of the Anglo-Saxons were governed by the revolutions of the Moon. Their common year consisted of twelve lunar months, three months being appropriated to each of the four seasons; but every third year contained an additional lunar month, which was given to the summer season. The names of their lunar months either had reference to their religious ceremonies, or to the natural appearances of the year.

A considerable variation prevailed generally amongst the nations of antiquity, and still partially prevails, with regard to the commencement of the YEAR. The Jews dated the beginning of the sacred year in the month of March; the Athenians, in the month of June; the Macedonians, on the 24th of September; the Christians of Egypt and Ethiopia, on the 29th or 30th of August; and the Persians and Armenians, on the 11th of August. The Jewish civil year begins on the first day of the month *Tisri*; the Mahommedan begins on the first of the month *Moharem*. Nearly all the nations of the Christian world now commence the year on the first of January; but as recently as 1752, even in England, the year did not legally and generally commence till the 25th of March. In Scotland, at that period, the year began on the 1st of January. This difference caused great practical inconveniences, and January and February, and part of March, sometimes bore two dates, as we often find in old records, as 1711-12. This practice often leads to chronological mistakes.

The year, properly so called, is the solar year, or the period of time in which the Sun passes through the twelve signs of the Zodiac. This period comprises 365 days, 5 hours, 48 minutes, 51 seconds, 6 decimals, and is called the astronomical year.

The Calendar is a table of the days of the year arranged to assist the

1803464

distribution af time, and to indicate remarkable days connected with devotion or business. If every nation had adopted the same divisions of time, and a uniform Calendar had been general throughout civilized states, history would present much fewer difficulties and contradictions. The progress of astronomical science has necessarily produced great changes in the manner of dividing time; and thus, whilst some nations have been ready to give their Calendar every possible advantage of a scientific construction, the prejudices of others have rendered them unwilling to depart from their accustomed mode, however inaccurate. It may be curious and *instructive* to trace, very briefly, the changes of the Calendar; ordinarily called the changes of style.

The Romans called the first days of each month *Calenda*, from a word which signified *called*; because the pontiffs on those days called the people together, to apprize them of the days of festival in that month. Hence we derive the name of CALENDAR.

The Roman Calendar, which has in great part been adopted by almost all nations, is stated to have been introduced by Romulus, the founder of the city. He divided the year into ten months only; Mars, Aprilis, Maiue, Junius, Quintilis (afterwards called Julius), Sextilis (afterwards called Augustus), September, October, November, December. Mars, Malus, Quintilis, and October, contained 31 days each, and each of the six other months, 30 days; so that the ten months comprised 304 days. The year of Romulus was, therefore, of 50 days' less duration than the lunar year; and of 61 days' less than the solar year; and its commencement of course did not correspond with any fixed season. Numa Pompilius corrected this Calendar, by adding two months—Januarius and Februarius—which he placed before Mars. Julius Cæsar, being desirous to render the Calendar still more correct, consulted the astronomers of his time, who fixed the solar year as 365 days, 6 hours, comprising, as they thought, the period from one vernal equinox to another. The six hours were set aside, and at the end of four years, forming a day, the fourth year was made to consist of 366 days. The day thus added was called intercalary, and was added to the month of February, by doubling the 24th of that month, or, according to their way of reckoning, the *sixth* of the Calends of March. Hence the year was called Bissextile. This almost perfect arrangement, which was denominated the Julian style, prevailed generally through the Christian world till the time of Pope Gregory XIII. The Calendar of Julius Cæsar was defective in this particular: that the solar year, consisting of 365 days, 5 hours, and 49 minutes, and not of 365 days, 6 hours, as was supposed in the time of Julius Cæsar, there was a difference between the apparent year and the real year, of eleven minutes. This difference, at the time of Gregory XIII., had amounted to ten entire days, the vernal equinox falling on the 11th instead of the 21st of March, at which period it fell correctly at the time of the council of Nice, in the year 325. To obviate this inconvenience, Gregory ordained, in 1582, that the 15th of October should be counted instead of the 5th, for the future; and, to prevent the recurrence of this error, it was further determined that the year beginning a century should not be bissextile, with the exception of that beginning each fourth century. Thus, 1700 and 1800 have not been bissextile, nor will 1900 be so; but the year 2000 will be bissextile. In this manner three days are retrenched in four hundred years, because the lapse af eleven minutes makes three days in about that period. The year of the Calendar is thus made to correspond, as nearly as possible, to the true solar year; and future errors of chronology are avoided.

The adoption of this change, which is called the Gregorian, or New Style (the Julian being called the Old Style), was for some time resisted by states not under the authority of the See of Rome. The change of the style in England was established by an Act of Parliament, passed in 1752. It was then enacted that the year should commence on the 1st of January, instead of March 25th; and that in the year 1752, the days should be numbered as usual until September 2, when the day following should be accounted the 14th September, omitting eleven days. The Gregorian principle of dropping one day in every huadreth year, except the fourth hundredth, was also enacted. The alteration was for a long time opposed by the prejudices of individuals; and even now, in England, with some persons, the Old Style is so pertinaciously adhered to, that rents are made payable on the old quarter-days instead of the new. The Russians still retain the Old Style, thus creating an inconveaience in their public and commercial intercourse with other nations, which we trust that the growing intelligence of the people will eventually correct.

During the period in which France was a Republic, the authorities introduced an entire change in the Calendar, which was in existence more than twelve years, and is important to be noticed, as all the public Acts of the French nation were dated according to this altered style. The National convention, by a decree of October 5th, 1793, established a new era, which was called, in the place of the Christian era, the era of the French. The commencement of each year, on the first "*Vendimiaire*," was fixed at the midnight commencing the day on which the autumnal equinox fell, as determined at the Observatory of Paris. This era commenced the 22nd September, 1792, being the epoch of the foundation of the Republic; but its establishment was not decreed till the 4th "*Frimaire*" of the year II. (24th November, 1793.) Two days afterwards, the public acts were thus dated. This Calendar existed till the 10th "*Nivose*," year XIV. (the 31st December, 1805), when the Gregorian mode of computation was restored.

STREETS, COURTS, PLACES, ETC.

Amherst, from Elm, Arcade B., to Beech, and continues
Amherst, from Main (P.) to Catholic Burying Ground
Amoskeag, across the river, via Falls Bridge
Ash, from 78 Lowell to Orange, first east of Beech
Auburn, from Elm, opp. Cemetery, to State
Bakersville, south part of Elm, and vicinity
Bald Hill Road, from Candia Road, over Bald Hill, to Bridge Street
Beacon, from Merrimac to Hanover, Beansville
Beansville, at the head of Manchester
Bedford, from Central, west of railroad, to Weir
Beech, from Central to Orange, east of Union
Belmont, from Bridge, Hall's Hill, to Hanover Street
Birch, from 16 Lowell to Bridge
Blodgett, from Elm, at Hooksett Road, to Chestnut
Bowman Place, from High (P.)
Bridge, from Canal, north of Stark Mill, across Elm to Janesville, and continues
Brook, from upper canal, crossing Elm, to the Reservoir
Burrough Road, from Candia Road to Webster Mills
Calef Road, from Nutt Road to River Road, south
Canal, from Auburn to Bridge, and con. to Amoskeag
Cedar, from Franklin to Union, south of the Park
Cedar (W.), from Elm to Pine
Central, from Bedford, north of Railroad Depot, to Beech
Charles, from Spring to Bridge, west of Kidder's Block
Chester, near head Amherst to Concord, Towlesville
Chestnut, from the Cemetery to Hooksett Road
Church, from 8 Lowell to Bridge
Church Court, from Manchester, Baptist Church

Clinton, from Main, n. the Depot, to West (P.)
Concord, from Elm to Towlesville
Crescent Place, from 32 Bridge
David Young's Road, from near lower end Pine to Manchester Centre
Depot, from Canal, at Passenger Depot, to Elm
Derry Road, to the town of Derry
Derry Street, near head of Amherst, Towlesville
Dunbarton Road, from Front, at Farmer's Mill (A), to Dunharton
East, from Granite (P.)
East Spruce, from 41 Pine to Union
Elm, principal business street running north and south
Falls Bridge, over the Amoskeag Falls, to Amoskeag Village
First, from Mill to Bridge (A.)
Franklin, from Market, west of the church, to Valley
Front, from Mill Street (A.), through the Village, to Hooksett Line
Goffstown Road, from Front (A.) to Goffstown
Gooden's Avenue, from 9 Central
Gore, from Oak to Russell, north of the Reservoir
Granite, from Elm, via Granite Bridge, to Pleasant (P.)
Granite Bridge, across the River to Piscataquog
Green, from Franklin, south of Hall, to the Cemetery
Grove, from Franklin, south of Green, to the Cemetery
Hall, from Franklin, south of Auburn, to the Cemetery
Hall Street, from Bridge to Hanover, Hall's Hill
Hallsville, head of Spruce, Cedar, and Merrimac
Hamilton, from Washington, n. Fulton Works, to Jefferson, Bakersville [continues
Hanover, from Elm, opp. City Hall, to Towlesville, and
Harrison, from Elm to Chestnut
Harvey Road, from Nutt to Moore's village
High, from 193 Chestnut to Union
High, from Amherst to Mast (P.)
Hollis, from Canal, at Locomotive Works, C. R., to Elm
Hooksett Road, from Blodgett to Hooksett

Jackson, f. River Road south to the Railroad, Bakersville
Janes, Janesville to Lowell Street, Towlesville
Janesville, head of Bridge and Pearl [Bakersville
Jefferson, from River Road south to Fulton Works,
Kidder's Court, from Elm, nearly opposite City Hotel
Laurel, from Chestnut, Merrimac Sq., to Old Hall Road
Lowell, from Elm, at City Hotel, to Towlesville, and continues
Main, from Amoskeag, through Piscataquog Village
Mammoth Road, north and south from Hooksett to Londonderry
Manchester, from 86 Merchants' Exch. to Old Hall Road
Manchester Centre, east from Merrimac Street
Maple, f. Bridge, north Janesville Steam Mill, to Brook
Market, from Elm, City Hall, to Canal
Mast, from Main, west, via Piscataquog River
Mast (New), from Mast (P.)
Mechanic, from Amherst to Concord, Towlesville
Mechanic, from Elm, north of Central B., to Canal
Mechanics Avenue, from 4 Manchester to Hanover
Mechanics Court, from 36 Concord, opp. Concord Square
Mechanics Row, rear Blodgett Paper Mill, lower canal
Merrimac, from Canal, across Elm, south of Manchester House, to Old Hall Road
Methodist Court, from 4 Methodist Church
Middle, from Amoskeag, New Mill Counting Room, to Franklin
Middle, from Bridge, Janesville, above Steam Mill
Mill, from State to No. 1 Manchester Corporation
Mill, from Front (A.) to Amoskeag Island
Milton, from Park, Hallsville, to Hanover
Moore's Village, extreme south part of the City, near Goffs Falls
Myrtle, from Elm to Russell
Nashua, from Concord, Towlesville, to Bridge, Janesville, and continues
North Chestnut, north end of Chestnut
Nutt Road, south from Elm, near the Gas Works

Oak, from Myrtle to Gore, south-west of the Reservoir
Old Hall Road, from Mammoth Road, across Hanover, to Mammoth Road again
Orange, from Elm to Union, first north of Pearl
Park, from Elm, north of S. Grammar School, to Old Hall Road
Pearl, from Elm to Union, next north of Bridge Street
Pearl, Janesville, north and parallel with Bridge
Pine, from Bridge, at Cemetery, to Orange
Pine Grove, Manchester, west of Wilson's Hill
Piscataquog, across the River, over Granite Bridge
Pleasant, from Elm, south of Museum B., to Canal
Pleasant, from Walnut to Granite (P.), and continues
Prospect, from Elm to Russell, south of the Reservoir
Raybrook, north end of Elm
Russell, from Myrtle to Gore, east of Reservoir
Second, from 7 Mill to Bridge (A.)
South, Towlesville, from Janes to Lowell
Spring, from Elm, south of N. Grammar School, to 30 M. S. Block, Canal
Spruce (E.), from 41 Pine to Union
Spruce (W.), from Elm to Chestnut, east of the Park
Stark, from Elm, Patten's Block, to 2 Stark Block, Canal
State, from Granite to Mill
Summer, from Franklin, south of Auburn, to State
Summer, Janesville, above Steam Mill
Sumner, from Amherst to Main (P.)
Third, from Mill to Bridge (A.)
Towlesville, head of Concord and Amherst
Union, from Orange, east of Tremont Square, to Valley
Valley, from the River Road, south of the Cemetery, to Union
Vine, from Amherst, west of Concord Square, to Concord
Walnut, from Amherst, opp. Hanover Square, to Orange
Walnut, from Main to Pleasant (P.), and continues
Washington, from Elm, near Forest House [ville
Washington, from River Road south, to the river, Bakers-
Water, from Elm, opp. Elm Street House, to Canal

Water, from Bridge, Janesville, above Steam Mill
Weir, from State, on the lower canal weir, to Franklin
West, from Walnut to Clinton (P.)
Willow, from Valley, west of the Cemetery, to Auburn
Wilson, from Hallsville to Bridge, Janesville
Wilson Row, Bridge Street
Winter, from Canal, at Locomotive Works, to Elm

BLOCKS AND BUILDINGS.

Atwell's Block, Manchester, near Union
Ayer's Block, Elm, between Museum and Crosby's Block
Barnes & Cilley's Block, Manchester, near Elm
Barnes & Putney's Building, Elm, corner Hanover
Bartlett's Block, 71 to 77 Chestnut
Bean's Block, Pine, c. Merrimac, and Chestnut, c. Central
Bell's Block, Elm, below City Hotel
Boston Block, Laurel, corner Pine
Brown's Block, Elm, opp. Merrimac Square
Central Block, Elm, between Stark and Mechanic
Chase's Block, Walnut, c. Pleasant (P.)
Cheney and Marshall's Building, Elm, corner Central
City Bank Block, Hanover, near Elm
Crosby's Block, Elm, corner Merrimac
Dickey's Block, Main, near Granite (P.)
Elliott Building, Manchester, near Elm
Emerald Block, Elm, corner Park
Exchange Hall, 76 Merchants' Exchange
Ferren's Building, between Methodist Ch. and Union B.
Fremont Block, Manchester, corner Union
French's Building, Granite, near Main (P.)
Gas Works, Elm, near the Cemetery
Granite Block, Elm, near Merrimac
Haynes Block, Chestnut, corner Bridge
Jackson's Block, Chestnut, corner Pearl
Johnson's Block, Elm, near Bridge
Joy's Block, Elm, near Merrimac
Kennard's Block, Elm, corner Washington

Kidder's Block, rear Elm, between Bridge and Spring
Knowles's Block, Chestnut, corner Merrimac
Marshall's Building, Elm, between Pleasant and Central
Masonic Temple, Hanover, near Elm
Merchants' Exchange, from 71 to 86 Elm
Merrimac Block, Elm, c. Merrimac, opp. Crosby's B.
Monument Building, Elm, between Pleasant and Central
Museum Building, Elm, between Merrimac and Pleasant
Music Hall, Elm, corner Pleasant
Mystic Hall, 76 Merchants' Exchange
Page & Riddle's Block, Bridge, corner Elm
Parson's Block, Concord, between Chestnut and Elm
Patten's Building, Elm, north of City Hall
Pierce's Block, Main, corner Clinton (P.)
Plumer's Block, 62 Elm
Riddle's Building, Elm, corner Hanover
Rundlett's Block, Manchester, near Baptist Church
Smith's Block, West Spruce, between Elm and Chestnut
Smyth's Block, Elm, between Water and Spring
Stark Block, Elm, between Water and Mechanic
Union Building, Elm, between Market and Merrimac
Webber's Block, Chestnut, corner Laurel
Wallace's Block, Vine, corner Concord
Wells's Block, Elm, corner Spring

HALLS.

City Hall, Market, corner Elm
Franklin Hall, rear of American House, Manchester
Granite Hall, in Granite Building, Elm, near Merrimac
Masonic Hall, Masonic Temple, Hanover
Melodeon, on Lowell, near Elm
Merrimac Hall, in Merrimac Building, Elm
Music Hall, Elm, corner Pleasant
Odd Fellows' Hall, Masonic Temple, Hanover
Pleasant Street Hall, Elm, corner Pleasant
Smyth's Hall, Smyth's Block, Elm
Wells's Hall, in Wells's Building, Elm, near Spring

SQUARES.

CONCORD. — Bounded on the north and south by Concord and Amherst; east and west by Pine and Vine. Laid out with gravelled walks, ornamented with trees, and contains a circular reservoir, walled in with stone; contains $4\frac{5}{8}$ acres; deeded to the city, Jan. 25, 1848, by the Amoskeag Company.

HANOVER. — Bounded north and south by Amherst and Hanover; east and west by Walnut and Union; contains 4 acres of land; has a large open reservoir.

MERRIMAC. — Bounded north and south by Merrimac and Central; east and west by Chestnut and Elm. It has a large open reservoir, and contains $5\frac{5}{8}$ acres. It was deeded to the city by the Amoskeag Company, Jan. 25, 1848.

TREMONT. — Bounded north and south by Bridge and High; east and west by Union and Pine. It is laid out with gravelled walks, and has a covered reservoir. It contains $2\frac{1}{4}$ acres, and was deeded to the city, Jan. 25, 1848, by the Amoskeag Company.

THE PARK — Bounded north and south by Park and Cedar; east and west by Pine and Chestnut. It contains $3\frac{1}{2}$ acres.

THE RESERVOIR. — The Company's Reservoir is situated about one mile in a north-easterly direction from the City Hall. It is a rectangular, 484 feet by 234 feet at the top; depth of water, 18 feet; capacity, 11,000,000 of gallons. The height of reservoir above the river is 150 feet. The design of the Company in building this reservoir is to supply the mills and boarding-houses with water.

BOUNDARIES OF WARDS.

SEC. 2 OF CITY CHARTER. The City of Manchester hereby is, and shall continue to be, divided into eight wards, which shall be constituted as follows, viz.:—

Ward No. 1 shall include all that part of the city situated between Merrimac River on the west, and Elm Street on the east, and the centre line of Market Street produced to the

river on the south, and the centre line of the road leading from the Amoskeag Falls Bridge to Elm Street on the north.

Ward No. 2 shall include all that part of the city situated between Elm Street on the east, and the Merrimac River on the west, and between the south line of Ward No. 1 on the north, and a line from the point where Elm Street intersects the old river road near the Valley Cemetery due west to the Merrimac River on the south.

Ward No. 3 shall include all that part of the city now included within the limits of School District No. 1, and so much of School District No. 2 as is situated east of Elm Street, and north of the centre line of Lowell street, produced to the easterly line of said School District No. 2.

Ward No. 4 shall include all that part of the city situated between Elm street on the west and the Wilson Road on the east, and between the south line of Ward No. 3 on the north and Hanover Street on the south.

Ward No. 5 shall include all that part of the city situate between Elm Street on the west, and the Wilson Road on the east, and the south line of Ward No. 4 on the north, and the centre line of Central Street produced to the Wilson Road on the south.

Ward No. 6 shall include all that part of the city on the east of the Merrimac which is not included in any of the above wards.

Ward No. 7 shall include all that part of the city severed from Bedford in 1853, and kuown as Piscataquog.

Ward No. 8 shall include all that part of the city severed from Goffstown in 1853, and known as Amoskeag.

ABBREVIATIONS.

h., house; b., or bds., boards; r., rear; n., near; c., or cor., corner; opp., opposite; st., street; sq., square; pl., place; ct., court; ave., avenue; blk., block; bld., building; ch., church; corp., corporation; C. R., Counting Room; (Cal.), California; (A.), Amoskeag Village; (P.), Piscataquog Village.

After the name of the street, the word "street" is omitted: the name of a corporation occurring immediately after the name of a person signifies the place of business of that person.

GENERAL DIRECTORY.

ABBOTT EDWARD P. clothing, 11 Central Block, boards Jeremiah Abbott's
Abbott Edward P. civil engineer, boards Belmont, Hall's Hill
Abbott Egbert O., Stark Corp. h 25 Walnut, corner Lowell
Abbott Ira S. teamster, house 29 Birch
Abbott Jackson J. *(Lancaster & A.)*, painter, Wells's block, boards 117 Amoskeag Corporation
Abbott Jeremiah & Co. *(Horace Pettee)*, flour, grain, &c. 4 Museum Building, house 255 Manchester
Abbott Joseph C. adj. general of N. H. office 76 Elm, and editor "Boston Atlas and Bee," boards 97 Union

PUBLIC SCHOOLS OF THE CITY.

The city has eleven school districts, forty-three schools, thirty-five school-houses, fifty teachers, and about four thousand scholars. Districts Nos. 2 and 3 maintain schools through the year; Nos. 4, 5, 7, 10, and 11, through three-fourths of the year, and the remaining districts only one-half of the time. District No. 2, embracing the city proper, has six large brick houses, affording accommodations for twenty schools; and seven wooden houses which are occupied by ten schools: No. 10 has two houses, in which are three schools, and accommodations for two more; No. 11 has two schools in one house. The remaining districts have each but one house and one school.

SOCIETIES.

CITY LIBRARY AND READING ROOM.

No. 6 Patten's Building, up stairs.

OFFICERS. — E. W. Harrington, Mayor, *President ex-officio;* Wm. C. Clarke, *Clerk;* Samuel N. Bell, *Treasurer;* Samuel D. Bell, Daniel Clark, E. A. Straw, David Gillis, Wm. C. Clarke, Samuel N. Bell, E. M. Topliff, *Trustees;* Francis B. Eaton, *Librarian.*

Books delivered from 9 to 12 A. M., and 2 to 5 and 7 to 9 P. M., Sundays, Wednesday Evenings, and Holidays excepted.

The Reading Room connected is open from 9 A. M. to 9 P. M each week day, and from 5 to 9 on Sundays. It was incorporated and went into operation September, 1854, during the mayoralty of Hon. Frederick Smyth, and is free to every citizen of the place on the following conditions: —

1. Any such resident, of the age of twenty-one years and upwards, may deposit with the Librarian the value of any book he may desire to take, to be estimated by the Librarian, either in money or other sufficient property in the judgment of the Librarian. Such deposit shall be evidenced by a ticket showing its object, a copy of which shall be entered on a book by the Librarian. It shall be restored to the depositor on the return of the book or books taken, and payment of all fines and damages for negligence or injury, and return of such ticket. In case such book is not returned, and such fines and damages paid, such deposit shall be forfeited to the city. Neither the city, the Trustees, or the Librarian, shall be liable for any loss or injury to the property so pledged, unless it arise from their gross negligence or fault.

2. Or any such resident, of the age of sixteen years and upwards, may file with the Librarian a guaranty of some responsible person, known to the Librarian, agreeing to be answerable for the safe return of all books borrowed by him, uninjured, and for the payment of all fines and damages incurred by him. Such guaranty shall be valid for the time mentioned therein, but may be revoked by the signer at any time, at his pleasure, by a notice in writing given to the Librarian, in which case his liability shall cease, except as to books previously taken, and fines and damages previously incurred.—*Rules of Board of Trustees.*

The Library contains a well-assorted collection of books in every department of the English language, of 6,300 volumes. Constant additions are made from time to time.

LAFAYETTE LODGE, No. 41.

Meet Wednesday on or before full moon.

John B. Fish, *W.M.;* Ezra Huntington, *S.W.;* T. Frank Harvell, *J.W.;* A. A. Balch, *Secretary.*

WASHINGTON LODGE, No. 61.

Meet second Wednesday after full moon.

Samuel G. Langley, *W.M.;* Geo. W. Parker, *S.W.;* Geo. H. Goodwin, *J.W.;* Charles F. Livingston, *Secretary;* James S. Cheney, *Treasurer.*

ODD FELLOWS.

Hold Meetings at Masonic Temple.

WONOLANSET ENCAMPMENT, No. 2.

Meet first Friday in each month.

Walter Neal, *C.P.;* G. P. Mason, *H.P.;* E. B. Merrill, *S.W.;* Joel Taylor, *Scribe;* J. J. Baldwin, *Treasurer.*

HILLSBOROUGH LODGE, No. 2.

Meet on Monday evening of each week, at quarter before 8.

Leonard Colby, *N.G.;* Charles Abels, *V.G.;* Ira A. Brown, *Secretary;* Wm. B. Lane, *Treasurer.*

MECHANICS' LODGE, No. 13.

Meet Tuesday evening of each week at quarter before 8.

Geo. S. Neal, *N.G.;* C. H. G. Foss, *V.G.;* Geo. W. Weeks, *Secretary;* Samuel Upton, *Treasurer.*

NEWSPAPERS.

MANCHESTER DEMOCRAT AND AMERICAN.

Goodale & Farnsworth, 71 Merchants' Exchange, *Proprietors.* Published every Wednesday morning, at $1.25 a year.

DAILY AMERICAN.

Published every evening (Sundays excepted), by Goodale & Farnsworth, 71 Merchants' Exchange, at $3 a year.

MANCHESTER DAILY MIRROR.

MILITARY.

AMOSKEAG VETERANS.

Forty-third Battalion, 4th Division, 3d Brigade of New Hampshire Militia.

This Association was organized Nov. 20, 1854, for "military

parade" and "social enjoyments," adopting for their uniform the style of dress worn by the officers of the Revolution. In June, 1855, they received from the Legislature an act of incorporation, creating them a distinct battalion, limited to two hundred and fifty, rank and file.

There are now about 175 members, of whom 130 are uniformed.

The officers chosen in October, 1859, for the ensuing year, are as follows:—

OFFICERS.

Colonel, T. T. Abbott.
Lieutenant Colonel, T. W. Little.
Major, John S. Kidder.
Adjutant, S. G. Langley.
Quartermaster, B. P. Cilley.
Paymaster, William Whittle.
Surgeon, W. W. Brown.
Surgeon's Mate, H. C. Parker.
Chaplain, B. M. Tillotson.
Sergeant Major, D. Cross.
Quartermaster Sergeant, J. Haines.
Drum Major, J. Clark.
Fife Major, G. W. Parker
Captain 1st Company, S. W. Parsons.
Lieutenant 1st Company, W. D. Patten.
Captain 2d Company, R. D. Mooers.
Lieutenant 2d Company, Joseph M. Rowell.
Captain 3d Company, J. C. Ricker.
Lieutenant 3d Company, S. C. Hall.
Captain 4th Company, A. C. Wallace.
Lieutenant 4th Company,
1st *Standard Bearer*, Samuel Gamble.
2d *Standard Bearer*, M. D. Stokes.
Executive Committee, B. F. Martin, S. G. Langley, Joel Ricker, W. H. Hill, G. H. Kimball.
Treasurer, James Hersey.
Clerk, B. P. Cilley.
Armory in Museum Building.

MANCHESTER CORNET BAND.

Room in Wells's Block.

Walter Dignam, *Leader;* Peter S. Brown, *Clerk.*

MANUFACTURING COMPANIES.

AMOSKEAG MANUFACTURING COMPANY.

Incorporated, July, 1831; commenced operations, 1837. Capital, $3,000,000. The business of this corporation is divided into three departments.

LAND AND WATER POWER COMPANY.

E. A. Straw, *Agent;* C. L. Richardson, *Clerk;* E. H. Hobbs, *Engineer.*

AMOSKEAG NEW MILLS.

E. A. Straw, *Agent;* Charles L. Richardson, *Clerk.*

There are five mills. Nos. 1 and 2 commenced operations in 1841; No. 3 commenced operations in 1844; No. 4 commenced operations in 1848; No. 5 commenced operations in January, 1856.

Mill No. 1 contains			8,960	spindles and	270 looms.
" " 2	"		8,832	"	300 "
" " 3	"		20,478	"	600 "
" " 4	"		24,576	"	667 "
" " 5	"		20,000	"	480 "
Total,			82,846		2,317

Employ 475 males, 2,100 females; manufacture annually 20,000,000 yards sheetings, drillings, tickings, mariner stripes, denims, and flannels. Use annually 9,000,000 lbs. cotton, 400 tons coal, 9000 cords wood, 15,950 galls. of oil, 130 tons of starch, 25,000 lbs. indigo; 119 tenements are used as boarding houses; $520,000 paid out yearly at the mills.

MACHINERY AND LOCOMOTIVE DEPARTMENT.

E. A. Straw, *Agent;* N. S. Bean, *Supt.;* Justus D. Watson, *Clerk.*

This department comprises the following, viz.: three shops, one foundry, one boiler-shop, one tank-shop, and one paint-shop; each containing the most improved tools adapted to all branches of mechanical manufactures. Employ annually 500 men. There is consumed at the works every year, 2000 tons of pig iron, 1000 tons of bar iron and steel, 150 tons of copper, 75 tons of brass and malleable castings, 300 tons of boiler and tank iron, 600 tons of Lehigh coal, 600 tons of Cumberland (English) coal, 3000 bushels of charcoal, 4000 gallons of oil, and 1,200 cords of wood. They turn out 5 locomotives per month, make machinery for a mill of 20,000 spindles annually, besides a large amount of transient castings and forging for others to put into mill work and machinery.

STARK MILLS.

Phinehas Adams, *Agent;* Wm. B. Webster, *Clerk.*

Incorporated, 1838. Commenced operations, 1839. Capital, $1,250,000. Three mills; 42,000 spindles.

No. 1 Mill, 21,400 spindles, 460 looms for sheetings, and 210 looms for bags. No. 2 Mill, 19,564 spindles, 550 looms for sheetings and drillings. They manufacture sheetings, drillings, and bags. They employ 200 males and 959 females. Number of tenements, 66. Pay at mills, $30,000 per month. Consume annually, 1,000,000 cubic feet of gas, 5,880 gallons of oil, 75 tons of starch, 1000 tons of coal, 6,000,000 lbs. of cotton. Manufacture annually, 2,200,000 (2 bush.) bags, 8,000,000 yards sheeting, 5,000,000 yards drillings. Bag Mill, 100 looms.

MANCHESTER PRINT WORKS.

Charles H. Dalton, *Superintendent;* Samuel Webber, *Asst. Supt.;* Waterman Smith, *Agent;* Andrew N. Baker and Josiah S. Shannon, *Clerks.*

Incorporated, 1839. Capital, $1,800,000. Commenced operations, March, 1845. The first Agent was James Peacock, an Englishman, who left in 1848. The establishment then passed under the management of Wm. P. Newell, Esq., the Agent of the Delaine Mills, who resigned in 1852. On the 22d of September, 1853, the works were entirely destroyed by fire, but were immediately rebuilt.

PRINTING DEPARTMENT.

No. of hands employed: males, 400; females, 30. Paid out annually, for drugs, $375,000; pay-roll, $180,000; fuel, $30,000. Ten Printing Machines.

Print annually, Delaines, 12,000,000 yards.
" daily, " 37,500 "
" annually, Cottons, 3,462,678 "
" daily, " 12,000 "

No. of tenements, 36.

MANUFACTURING DEPARTMENT.

There are 2 mills containing 50,000 spindles, 1,200 looms; employing 300 males, 1000 females; manufacture 10,000,000 yards delaines, printing cloths, and cashmeres. Use 1,000,000 lbs. sorted wool, 1,500,000 lbs. cotton, 1,700 cords wood, 800 tons coal, 4000 gals. sperm oil, 3,500 galls. olive oil, 68,000 lbs. oil soap, 40 tons starch, pay out annually $330,000.

PAY-DAYS ON THE CORPORATIONS.

Amoskeag, week after the last Saturday but one in each month.

Amoskeag Machine Shop, week after last Saturday in each month.

A. Blood's Locomotive Works, second Saturday of each month.

Manchester, week after the first Saturday in each month.

Manchester Iron Co., week following second Saturday in each month.

Print Works, third of each month.

Stark Mills, week after the last Saturday in each month.

AMOSKEAG DUCK AND BAG CO.

Incorporated, 1856. Commenced operations, Jan., 1857. Capital, $100,000.

Nathaniel Webster, *Agent.*

Manufacture 600,000 bags per annum; employ 40 males and 85 females.

Pay-day, 15th of each month.

AMOSKEAG PAPER MILL.

B. F. Martin, *Proprietor.*

Manufacture about one ton per day of book and news paper; employ 15 men and 15 girls. Building 100 feet long by 50 wide, three stories high.

BLODGETT EDGE TOOL MANUFACTURING CO.

Incorporated, June, 1853. Capital Stock, $100,000.

A. E. Straw, *President.* T. W. Little, *Treasurer and General Agent.*

Manufacture all kinds of edge tools, employ about 40 hands, make about 300 tools per day. Building 160 feet long, 60 wide, and three stories high.

MANCHESTER IRON COMPANY AND SCALE WORKS.

D. A. Bunton, *President;* D. J. Daniels, *Treasurer and Clerk;* B. F. Locke, *Agent.*

Capital Stock, $150,000. Commenced operations, Oct., 1853.

Manufacture all sorts of castings for mills and other purposes; also, Standard Weight Scales of every description. Employ 60 hands.

MANCHESTER LOCOMOTIVE WORKS.

Incorporated, 1854.

W. G. Means, *Clerk and Treasurer.*

Manufacture locomotive, and stationary steam engines and tools. There are three shops. The buildings and tools of this Co. are leased by A. Blood, for the manufacture of machinery, &c.

AMERICAN EXCELSIOR CO.

William Blanchard, *Agent.*

Manufacture "Excelsior," a new article for filling beds, sofas, chairs, &c. Employ 10 hands. Located on Mechanics Row.

MANCHESTER GASLIGHT COMPANY.

Incorporated, 1851. Commenced, 1852. Capital, $100,000.

E. A. Straw, *President;* J. T. P. Hunt, *Superintendent;* H. Foster, *Clerk and Treasurer.*

E. A. Straw, David Gillis, John S. Kidder, W. P. Newell, *Directors.*

The Gas Works are situated in the southerly part of the city, near the M. & L. Railroad, and built of brick, with slated roofs. Fourteen miles of pipe, varying from 14 to 2 inches in diameter, have been laid, extending to different parts of the city. The company are able to furnish 150,000 cubic feet of gas every 24 hours, though the pipes are of sufficient capacity and strength for double that amount. Between 18,000 and 20,000 tons of gas coal are consumed in a year, producing between 12,000,000 and 14,000,000 cubic feet of gas. The number of burners in mills is about 5,500; in houses, stores, &c., near 8,000; besides 107 street lamps. The gas is sold at the rate of $3.25 per 1,000 cubic feet.

RAILROADS.

CONCORD RAILROAD.

Incorporated, 1835. N. G. Upham, Concord, *President.* Isaac Spalding, Josiah Stickney, Charles H. Peaslee, Uriel Crocker, F. C. Manning, J. S. Kidder, *Directors.* John H. George, Concord, *Clerk.* N. P. Lovering, Boston, *Treasurer.* Hon. Joseph A. Gilmore, Concord, *Superintendent.* C. H. Hurlburt, *Agent and Ticket Master for the Manchester Station.* Gilbert G Gordon, *Depot Master.* F. Andrews and John O. Parker, *Freight Clerks.* W. H. Dole, *Freight Agent.*

MANCHESTER AND LAWRENCE RAILROAD.

Incorporated, 1847. N. G. Upham, Concord, *President.* E. J. M. Hale, Haverhill, David A. Bunton, Manchester, Charles Conner, Exeter, N. G. Upham, Asa Fowler, Concord, John Flint, Andover, N. G. White, Lawrence, *Directors.* William C. Clarke, Manchester, *Clerk.* D. J. Daniels, Manchester, *Treasurer.* J. A. Gilmore, *Superintendent.*

NEW-HAMPSHIRE CENTRAL RAILROAD.

From Manchester to North Weare, is run by the Concord Railroad Co.

STAGES.

Stages leave for Candia and Deerfield daily (Sundays excepted), on the arrival of the first train from Boston.

John Mack, *Driver and Proprietor.*

Stage leaves for Amherst, Milford, and New Ipswich, Tuesdays, Thursdays, and Saturdays, at 6, A. M.

William Boulster, *Proprietor.* Stephen R. Thomas, *Driver.*

Stage leaves for Auburn, Chester, Haverhill, and Newburyport, Tuesdays, Thursdays, and Saturdays, at 7, A. M.

D. L Batchelder, *Proprietor.*

Books for the above routes kept at the principal Stage Office, City Hotel, Elm, corner Lowell.

POST OFFICE.

City Bank Building, Hanover, near Elm Street.

Thomas P. Pierce, *Postmaster.*

Office hours, from 7 A.M. to 9 P.M.

MAIL ARRANGEMENTS.

U. S. AND FOREIGN

PATENT AGENCY,

Room No. 11 Webster Bank Building,

13 EXCHANGE STREET, BOSTON.

SAMUEL COOPER,

LATE CHIEF EXAMINER IN THE U. S. PATENT OFFICE,

PROCURES PATENTS IN THIS AND FOREIGN COUNTRIES.

His long official connection with the Patent Office has renderd him familiar with its rules and practice, and with the history of invention in this and other countries; and this experience, with the frequent visits which he proposes making to the Patent Office, justifies him in saying that his Agency will offer to inventors all the advantages of one located in Washington, and, in addition, those which result from a residence in the midst of mechanical and manufacturing industry.

Advice given upon all matters relating to the validity, &c., of patents, the novelty and patentability of inventions. Specifications and drawings prepared; caveats filed; Reconsiderations procured of applications that have been rejected upon imperfectly prepared papers; cases of interference, and applications for extension and re-issue, prosecuted; and in general all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured, through prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble or expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonial:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 28, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the Office. He has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the Office, a close attention to the interests of his clients, and a marked candor and courtesy that have rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with hom I am acquainted. CHARLES MASON, *Commissioner.*

THE BOSTON MUSEUM

Was erected in 1845, and cost nearly $250,000. It is the largest, most valuable, and best arranged in the United States. It comprises no less than SEVEN DIFFERENT MUSEUMS, one-half of the celebrated PEALE'S PHILADELPHIA MUSEUM, swelling the collection to upwards of Half a Million of Articles, the greatest amount of objects of interest to be found together at any one place in America; and an entirely NEW HALL OF WAX STATUARY, one hundred feet in length, completely filled with Wax Figures. In addition to the attractions, and *without extra charge*, visitors are admitted to the gorgeous Exhibition Hall, where they can witness the magnificent THEATRICAL ENTERTAINMENTS, given every evening, and on Wednesday and Saturday afternoons.

Admission, Twenty-five Cents.

No. 28 Tremont St., between Court and School Sts.,

BOSTON MACHINE OIL COMPANY,

61 HAVERHILL STREET, BOSTON.

WE WISH TO CALL YOUR ATTENTION TO THE ARTICLE OF

LUBRICATING OIL

Which we are now manufacturing. This Oil is particularly adapted to Machinery of all kinds, from the finest Spindle to the heaviest Bearings, being equal to the best of Sperm, and has as much body, the specific gravity being the same. It is perfectly free from gum, keeps the bearings perfectly cool, and will stand a lower degree of cold than any other Oil now in use, running free at ten degrees above zero. It has been thoroughly tested, and is now in general use on the best kind of machinery.

FOREST HOUSE.

ELM, ABOVE LOWELL STREET,

P. W. HASELTINE.

This favorite Hotel has been recently fitted up and nothing is now wanting to make it a quiet home for the traveller and a favorite resort for all persons visiting Manchester either on business or pleasure. The proprietor guarantees satisfaction to all who may favor him with a call, and solicits the patronage of all former patrons of the house, and hopes to make the acquaintance of many new friends.

Coaches run to and from the house to connect with every train of cars.

CITY HOTEL.

D. T. NORRIS,

Late of the Elm Street House, in this City,

Informs his friends that he has taken the City Hotel, where he solicits a call from all his former patrons, as well as from all the old patrons of this Hotel, and the public generally. The City Hotel has long enjoyed an extensive patronage among the people of New Hampshire, and among those visiting Manchester. It is now refitted and improved, with a view to leave it inferior to none in all the qualities of a

FIRST-CLASS HOTEL.

The location is convenient to the business section of the city; the rooms airy, pleasant, and handsomely furnished; and those visiting Manchester, either for pleasure or for business, will find at this House every comfort and attention to be found in the best house in New England. Hacks run from this house to connect with every train arriving at or leaving Manchester. Also, stages to the principal towns in the east and west.

Horses and Carriages furnished to order.

PATENT BORED WOODEN TUBING,

For Chain Pumps, Water Leaders, Aqueduct Pipes, Drain Pipes, &c.

☞ A new and valuable improvement in the method of prepaing PUMP TUBING. This Tubing is made by boring through solid joists, and matching one to another for any length required. Those who have used this Tubing pronounce it far superior to that in common use, for the ease with which it is adjusted in THE WELL, and its great durability.

Also, dealers in the celebrated Self-Sharpening Hay-Cutter.

BOSTON

MEDICAL AND SURGICAL JOURNAL.

This well-known and long-established Periodical enters upon its 62d volume in February, 1860. It will be issued weekly, as heretofore, from the office of publication, **Over 184 Washington Street, Boston.** Its editorial management has for several years past been entrusted to Dr. WM. W. MORLAND, formerly Secretary of the Boston Society for Medical Improvement, and Dr. FRANCIS MINOT, one of the Physicians at the Massachusetts General Hospital, who have been selected as fully qualified by their literary taste and scientific attainments to make the Journal acceptable to the profession generally. Aid is also now freely given by many of the leading Physicians of Boston, and it will continue to receive contributions from eminent members of the profession in every part of the country. Its contents, though mainly of a practical character, are intended to be sufficiently varied to make its weekly visits interesting as well as useful to the medical practitioner.

The price is THREE DOLLARS a year, payable in advance. Previous numbers of the current volume furnished, and back volumes also supplied at a liberal discount. Orders by mail, with subscription money enclosed, may be addressed as above, to

DAVID CLAPP, Publisher.

DR. J. W. CHAPMAN'S

CHOLERA, DYSENTERY, AND DIARRHŒA SYRUP,

For the certain and permanent cure of Dysentery, Diarrhœa, Cholera Morbus, Cholera, Cholera Infantum, and Summer Complaints.

A constant use of this medicine by the late Dr. J. W. CHAPMAN, during a practice of twenty years in Boston and vicinity, has thoroughly tested its virtues as a remedial agent.

MAYNARD & NOYES'S

BLACK WRITING INK

Testimony of Parties who have used it for more than a quarter of a century.

REGISTRY OF DEEDS OFFICE,
Boston, Jan. 10, 1859.

MESSRS. MAYNARD & NOYES:

GENTLEMEN, — I am glad that longer use of your Writing Ink enables me to repeat the testimony given in its favor many years ago. I have used it in this office thirty-seven years, and my oldest records are as legible and black as when first written. This rare quality for permanence renders it invaluable for State and County Records, and all mercantile purposes, where it is important that the writing should remain legible and unchanged in color by the lapse of time.

HENRY ALLINE, Register of Deeds.

BOWDOIN PUBLIC SCHOOL,
Boston, Jan. 7, 1857.

MESSRS. MAYNARD & NOYES:

GENTLEMEN, — I have used your ink in the Writing Department of this School the past thirty years, and take great pleasure in renewing my testimonial of its superior quality. It flows freely from the pen, its color is brilliant and permanent, and it combines all the necessary and desirable qualities of good ink.

JAMES ROBINSON, Writing-Master.

The following testimonial from Dr. Chilton is added *as a supplement to any of his previous tests:* —

From experiments instituted by me, in 1855 and 1856, and repeated within the past six months, I am fully satisfied that Maynard and Noyes's Writing Ink is entitled to the pre eminence it has always sustained for legibility and permanence of color.

NEW YORK, May 11, 1858. JAMES R. CHILTON, M. D., Chemist.

MAYNARD & NOYES'S COPYING INK.

This Ink yields a copy as distinct and perfect as the original. It also combines all the properties of our writing ink, for which it can be substituted.

MAYNARD & NOYES'S CARMINE INK.

This article is a beautiful red or crimson color, and surpassingly brilliant and rich. It is free from sediment, and will not mould, fade, or turn dark by exposure to the air.

The above popular Inks, together with Red, Blue, Indelible and Stencil Ink, Chemical Writing Fluid, Ink Powder, &c., are for sale by the Manufacturers in Boston, and by all Stationers and Booksellers.

WHEELER & WILSON'S

MEDAL FAMILY SEWING MACHINE.

The wide-spread reputation of this Machine is eminently due to its peculiar merits, which are acknowledged by the best judges to surpass all others in the requisites for family use. It has become a domestic institution, and is justly looked upon as a household economy. In all the finer qualities of family sewing, on silk, linen, cotton, and broadcloth, in hemming, stitching, quilting, gathering, and all the innumerable ends to which female needlework is applied, the

WHEELER & WILSON

SEWING MACHINE

Confessedly occupies a position of pre-eminence. Those who have not hitherto availed themselves of the advantages of this machine are invited to examine its operation, and obtain specimens of its work, at the salesroom. In order to place it within the reach of all, it is now offered at REDUCED PRICES, and a new style at FIFTY DOLLARS.
